

Bo McCall Bio

Bo McCall is a performance analyst with DataKC in the City Manager's Office for the City of Kansas City, Missouri. Bo supports DataKC's initiatives around data-informed decision-making and data storytelling. DataKC's services include facilitating citywide data analysis and process improvement projects, administering resident, business and employee satisfaction surveys, managing the City's open data portal and designing curriculum for the City's Data Academy for employees.

Bo currently leads the City's random control trial programming and plain language efforts to make City forms easier for residents to act on and understand. Recently, Bo has coordinated surveying efforts for the City's new teleworking workforce and helped develop an alternative work pilot program that helps connect City employees with temporary, COVID-19-related opportunities in the City's Health Department.

He holds a Master of Public Administration degree, with an emphasis in performance management, from the University of Kansas and a bachelor's degree in Economics from the University of Kansas.
