

*Britt is a Director and the Leader for Sustainability consulting in North America. He specializes in high-profile projects at the intersection of environmental, social, and economic sustainability. Britt blends strategic thinking and pragmatism to help organizations deliver their sustainability outcomes and initiatives successfully, using a combination of strong analysis, program management, collaboration, and innovation. Britt's teams have delivered transformational strategies in environmental sustainability, Smart Cities, Future of Mobility, and Innovation topics, and economic development. Britt was recently invited by UN Habitat to give a series of lectures at the International Urban Training Center in Korea on urban inclusion and regeneration to mid-career practitioners across Asia. Originally trained as a research scientist, Britt is also the winner of numerous internationally-competitive scientific research grants, and his research has been published in several leading academic journals.*
